SWIM IRELAND

Suppliers Directory

June 2026

Ireland Active | Leisure, Health and Fitness Association

Suppliers Directory - Introduction

Starting a renovation, new build, or feasibility study can be challenging - especially knowing where to begin. Swim Ireland, in conjunction with Ireland Active, has developed this Directory to help Local Authorities and leisure managers identify trusted suppliers of products and services. By highlighting reputable companies with a proven track record, we aim to provide objective information that supports informed decision-making and ensures value for money. Swim Ireland and Ireland Active do not receive any benefit from the companies listed in this Directory; our goal is simply to be a trusted advisor.

This list of suppliers is not exhaustive, and we welcome your suggestions. If you come across a company you believe should be included, please let us know.

Swim Ireland - Background

Swim Ireland is the National Governing Body for Swimming, Diving, Water Polo and Artistic Swimming on the island of Ireland. We are an all-island body, recognised by Government through Sport Ireland, Sport Northern Ireland and by the Olympic Federation of Ireland. We are recognised at European level by European Aquatics and at World Level by World Aquatics.

Our role, as set out by Sport Ireland, is to promote, develop and regulate our sports, administer the competitive element and to encourage participation. Our vision is to create “an island of swimmers.” We define swimming as “a form of physical activity in the water that people engage in whether for social connections, exercise, health and physical activity, challenge, mental wellbeing, skill development, competition, fun, or many of these reasons combined.”

Ireland Active is the national association for leisure, health and fitness sector and represent over 450 publicly and privately-owned leisure centres, gyms, swimming pools and recreation facilities nationwide.

Ireland Active’s mission is to support our members to recover, grow and strengthen – so as to encourage more people to be more active, more often.

Swimming is one of the priority sports called out in both the National Physical Activity Plan and the National Sports Policy 2018-2027 not only because it is a life skill, but due to its ability to retain participants over the full life course. The National Swimming Strategy 2024-2027 recognises that one of the biggest challenges for swimming is access to facilities.

The Swimming Pool Gap Analyis Report published by Swim Ireland in December 2025 highlights critical gaps in infrastructure across the country and a significant overreliance on hotel pools to meet demand. The report demonstrates the need for more public pools to be built in Ireland and to support our mission of becoming an island of swimmers. Swim Ireland is committed to providing free and objective guidance to the sector to support strategic decision making on pools.' please reach out to us (katemcknight@swimireland.ie) to see how we can support you.

Foreword

Both Swim Ireland and Ireland Active are committed to supporting you to deliver your next project within your budget and with a high standard of product and workmanship. We felt there was a need within our sector to provide our local authority partners with a choice of reputable companies across all aspects of infrastructure. Choices can be made, based on your requirements and learning can be had by companies showcasing new thinking, their product development which they can demonstrate in their area of expertise.

All the companies that are featured within this directory are reputable and have been in business for many years; all have been recommended within the industry which allows us the confidence to recommend them to you.

This directory has been created as a starting point, depending on your circumstances and what type of service you feel you may need, there are options in here for you to read through and to ask for support/ advice.

All the companies here have committed to have an open conversation without charge to see if they would be right for you and to help you with your projects going forward.

We will be adding to this directory on a quarterly basis, should other companies come forward who we feel meet our high standards of reputation and can offer the right service to all our readers. This is just the beginning of what will become a comprehensive brochure of reputable companies and your feedback on anyone you use would be greatly appreciated. Email katemcknight@swimireland.ie to get involved.

Our index lists the types of company you can access under various headings, if you are interested, please contact them directly and not though Swim Ireland or Ireland Active.

We wish you well with your project and hope our directory can assist you to find the right partner.

About

Swim Ireland is a 32 county body specialising in providing consultancy which supports the development and operation of swimming facilities across the Republic and Northern Ireland. We support Local authorities to ensure aquatic facilities are designed in accordance with EU standards and best practice.

We provide support to Local Authorities to create their Facility strategies and look to help develop swimming pool infrastructure for the future of swimming on the island. All aspects of our work are free of charge, and we offer support to design, build and operate.

Talk to us regarding the most appropriate operating model for your facility. We can advise on the type and the best financial model to suit all sizes of contract and have the latest information provided to you to make an informed choice of operating model.

We provide training for all aspects of Aquatics programmes, with Swimming Teacher Qualifications and we have a calendar of live CPDs and an e-Learning library for all your aquatics sports needs.

Learn to swim using our renowned Aquatic Academy programme designed to support you every step of a child's journey from learning a life skill to becoming a competent swimmer. Improving not only a child's performance but your revenue lines too!

Leisure Architects

Company - SPACE&PLACE (S&P)

Keith Ashton - CEO
Mafalda Brennan - Ireland Lead

Keith.ashton@space-place.com
mafalda.brennan@space-place.com

space-place.com/

0800 909 8008

About

SPACE&PLACE (S&P) is a specialist aquatic architecture and advisory practice with over 40 years' experience delivering high-performance swimming facilities across the UK and Ireland.

We have designed over 200 swimming pools worldwide, including 20 Olympic-standard 50m venues, national training centres, international competition pools and community leisure facilities.

In Ireland, our experience includes the €42.5m Dublin Aquatic Centre, incorporating a 10-lane 50m FINA-compliant competition pool, international diving facilities and major spectator provision.

Aquatics is a core strength of our practice.

We support projects ranging from elite performance environments to inclusive learn-to-swim and community participation facilities. Our designs align with international competition standards while ensuring accessibility, operational efficiency and long-term sustainability.

S&P are recognised authors of national swimming pool design guidance in the UK and regularly collaborate with governing bodies, operators and local authorities.

Our sustainability leadership includes pioneering Passivhaus leisure facilities, including the UK's first Passivhaus-certified leisure centre at St Sidwell's Point and Northern Ireland's first Passivhaus leisure facility at Lakeland Forum, significantly reducing operational energy use.

Key Products and Services

- Architecture and Project Management
- Competition and community pool design (25m & 50m)
- Technical standards and competition compliance advisory
- Feasibility studies and aquatic needs assessment
- Business case and funding support
- Pool tank specification and MEP coordination
- Inclusive changing and accessibility planning
- Decarbonisation and low-energy strategies
- Refurbishment and retrofit of existing aquatic facilities
- Technical client advisor

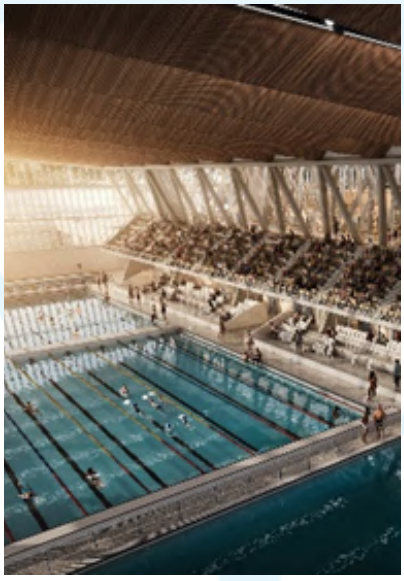
-Community and Elite Sports Specialists
-60+ Years of Low-Energy Sports Building Research
-100+ Swimming Pools Delivered
-Accessible Design

About

FaulknerBrowns is an international architectural design practice established in 1962 with studios in Ireland, the UK and Canada, and the Middle East with six decades of experience delivering complex leisure and sports projects.

Community Leisure Leaders: For over sixty years, our technical expertise has enabled us to create inclusive, welcoming leisure environments that are energy-efficient, adaptable and cost-effective to operate, an approach that has contributed to our four-time recognition as Building Design's Sports and Leisure Architect of the Year.



Innovators in Energy-Efficient Facilities: Low-Energy design is embedded in all our aquatics work. The Ravelin Sports Centre set a benchmark as the UK's first BREEAM Outstanding wet-and-dry leisure facility, achieving a 90% reduction in operational energy versus a typical leisure centre.

Designing with Accessibility in Mind: Prioritising accessibility, social value and sustainability, we have gained a reputation for the design of facilities that promote health and wellbeing in a fully inclusive manner.

For local authorities, operators and leisure providers planning a new community pool or full 50m aquatics destination, FaulknerBrowns offers the expertise, innovation and proven delivery record to create sustainable, inclusive and operationally successful facilities that will serve their communities for generations.

Rob Prescott - Head of Sports, Leisure & Wellbeing

Robert.prescott@db3group.com

DB3 Group | www.db3group.com

07748 701771

About

DB3 are an award-winning, multidisciplinary practice founded in 1883, with seven studios across the UK. Renowned for quality design and technical expertise, DB3 has long standing relationships with some of the world's biggest brands.

DB3's specialist Sport, Leisure and Wellbeing team has over 40 years of dedicated experience. DB3 have sat on British and European standards committees and worked with most of the industry's national governing bodies including Sport England, Sport Scotland, British Cycling, Swim England, Scottish Swimming, British Water Polo, Volleyball UK, The FA, UEFA, The Olympic Delivery Authority, Scottish Premier League, The Football Foundation and the Premier League
"Working with the design team at DB3 on our leisure projects has been an excellent experience from start to finish. The team have been incredibly knowledgeable, taking the time to fully understand our vision and carefully considering every outcome to ensure the best possible outcome.

Their responsiveness has been outstanding - always quick to reply to queries and proactive in offering solutions. What really stands out was how approachable and easy to communicate with they are, making what could be a complex process both enjoyable and straightforward."

Leisure Consultants

Company - The Sports Consultancy

Tom Pinnington

tom.pinnington@thesportsconsultancy.com

www.thesportsconsultancy.com

+44 (0) 7747007053

About

The Sports Consultancy was founded in 2006. We have a team of more than 50 permanent staff based in London and offices in the middle east.

We are the UK's leading leisure consultancy advising on new facility development and operation. Our senior team of consultants, and network of associates, offers a wealth of experience in high profile sport and leisure projects for public and private sector clients across the UK and the Middle East.

We have completed projects for public and private sector clients, including local and national governments, universities, national governing bodies of sport, international federations and professional sports clubs. Over £1bn has been invested in capital projects we have advised on by our clients.

We are one of a small number of suppliers on Sport England's consultancy framework and The UK Leisure Framework. Our work includes a wide range of leisure centre facility strategies, feasibility projects for venue owners and facility operator procurement. Many of these projects include swimming pools, ranging from toddler splash play, to teaching pools and 50m competition pools.

We work with all the major swimming pool architects and have delivered several projects in Ireland for clients including Belfast City Council and Dublin City Council.

Key Products and Services

Our core services, in relation to sports facility and swimming pool development projects, are listed below:

- Needs assessments
- Facility strategies
- Feasibility studies & options appraisals
- Business planning and financial business case
- Grant funding advice and applications
- Management options appraisals
- Operator procurement
- Social and economic impact assessments

Company - FMG Sport and Leisure

Kevin Godden - Managing Director

kevingodden@fmgconsulting.ie

David McHendry - Managing Director

david.mchendry@kkp.co.uk

www.kkp.co.uk

+44 (0)161 764 7040

About

KKP is an independent management consultancy delivering high quality services to the sport, leisure and cultural sectors across Ireland, the UK and beyond. Founded in 1990, we are the longest continually operational consultancy of our kind, with an unmatched breadth and depth of specialist experience and expertise.

As a multi-disciplinary practice providing a wide range of services, we have been involved in the development of many flagship swimming pools including the Leeds 50m pool, Sunderland Aquatics Centre, Tollcross, Plymouth Life Centre, University of Warwick Sport & Wellness Hub, the new Lakeland Forum in Fermanagh and Bangor Aurora...to name but a few!

Key Products and Services

We specialise in:

- Strategic planning
- Feasibility studies
- Business planning
- Evaluation
- Research
- Business improvement

We serve:

- National, and local government
- National Sports Councils
- National Governing Bodies of Sport
- Universities
- Leisure Trusts
- Private sector operators

We recently supported the feasibility and LSSIF bid for the Mullingar Regional Sports Complex as well as the two new pool developments in Dublin at Irishtown and Kilmore.

We have also worked on a range of business development projects for the NAC in Dublin, Glasgow Life, Birmingham City Council and Salford Community Leisure, where learn to swim was critical in driving increased income.

“The KKP team were excellent to deal with. They really got an understanding of what we were looking to achieve and then carried out some excellent research and analysis to help us achieve our goals. Extremely professional service and with goals and aims created for us to work towards”.

Key Products and Services

- I can offer a bespoke and personal service to clients adapting to the needs of local communities

About

I have been working within the leisure business for over 35 years - for a Leisure Charitable Trust, a National Leisure Operator and for a Local Authority - and have seen the transition from just providing facilities to working with local communities to improve their health and active wellbeing. I have worked closely with NGBs including Sport England, British Gymnastics and Swim England and also local and national health service providers. Strategic problem solving and accessing appropriate external funding whilst developing partnerships that enhance and benefit community wellbeing are my key strengths.

I can offer innovative solutions, funding application services and research on all aspects of the leisure and wellbeing industry, to Local Authorities, Leisure Trusts and to National Governing Bodies. I have the experience and expertise to work closely with clients, tailoring the individual requirements of their local communities, whilst giving a service that I can guaranteed will be personally delivered.

As Head of Leisure Services for a large local authority, I was responsible for the provision of swimming pools and leisure centres, sports centres, parks and outdoor recreation, seafront services, theatres, art galleries and regeneration, this included, service delivery, strategic development, accessing funding, programming, and community outcomes.

I have developed research into local need and desires, working with NGBs and funding bodies to ensure that communities access appropriate leisure provision to serve their local need, and developed strategic partnerships to draw down funding from Government Departments, NHS providers, NGBs, National Lottery and Charitable Organisations supporting community wellbeing.

Company - Holohan Leisure Consultants

information@auragroup.ie

www.auraleisure.ie/holohan/.com

About

For over 40 years, Holohan Leisure Consultants have worked closely with over 35 Local Authorities, County Councils and Corporations around Ireland. Our work with Local Authority clients includes sports, entertainment, feasibility studies, strategic planning, funding applications, product development, market appraisals and operational management consultancy.

We work with a variety of Government Departments and sports bodies to act as consultants on leisure tourism projects. We have assessed over 100 major leisure projects on our clients' behalf.

Our sports strategies examine integrated sports and leisure planning. We provide clear and concise business plans for our clients to ensure that their business is moving in the right direction.

Holohan Leisure can provide an impartial operational review for an entire facility or for a specific segment within that facility or organisation. Operational and structural reviews are used to help facilities identify any potential weaknesses e.g. operational procedures within their facility and help address any existing concerns within the company such as lack of profitability.

- Over 40 years experience
- Wide range of clients
- Feasibility studies
- Strategic Planning
- Funding Applications
- Market Appraisals
- Clear and concise business plan
- Operational reviews

Project & Procurement Management

Hadron Consulting

Company - Hadron Consulting Ltd

Peter Curtis - Director

info@hadronconsulting.co.uk

www.hadronconsulting.co.uk

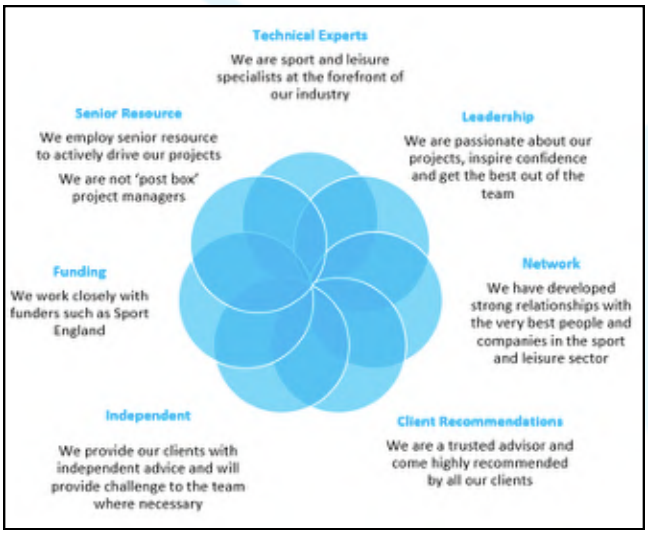
About

Hadron Consulting promotes innovation, quality and value in the delivery of complex projects.

We specialise in the project and programme management of high quality, complex and innovative projects. We have a proven track record of managing and delivering complex, multi-stakeholder projects, particularly in the sport and leisure sector.

We work closely with clients to build deep and trusted relationships that are founded upon high level performance and results.

The company is run by Peter Curtis, Stephen Jepson and Richard Thompson, formerly of Drivers Jonas and Deloitte, who take a hands-on approach to all our projects. Why us……



Key Products and Services

We provide a range of property consultancy services, including:

- Project management
- Programme management
- Procurement advice
- Contract administration
- Employer's Agent
- Feasibility studies
- Development monitoring

We pride ourselves on the relationships we build with our clients and would be happy for you to speak to any of our clients.

Leisure Contractors/ Builders

Company - ReCreation

Natalie McGuire - Commercial Director

Natalie.mcguire@therecreationgroup.co.uk

www.therecreationgroup.co.uk

About

ReCreation Group is an Olympian-led leisure development company redefining how communities access sport and recreation across the UK. Founded by Olympic medallists Steve Parry MBE, Adrian Turner and Rebecca Adlington OBE, the organisation was created to tackle the national shortage of water space and declining swimming attainment levels.

With a mission to 'Revolutionise Swimming and Change Lives', ReCreation delivers affordable, accessible and future-proof leisure facilities through innovative above-ground pool technology and modern methods of construction. This significantly reduces build time, capital cost and carbon footprint compared to traditional in-ground construction.

ReCreation provides a true turnkey solution from feasibility and business planning through to detailed design, construction and operational consultation, aligned to RIBA stages 0–6. Working in strategic partnership with leading architects, engineers and aquatic specialists, the company ensures exceptional value, faster delivery and measurable community impact.

ReCreation understand that large capital investment and the procurement and coordination of several different services is a complex and lengthy process. Working with the team at ReCreation offers a single partnership, a single relationship to support your project, absorbing the facilitation and management from conception to completion.

Key Products and Services

- Design & Build of Aquatic-Led Leisure Facilities
- Above-Ground Swimming Pool Solutions
- Modular & Modern Methods of Construction (MMC)
- RIBA 0–6 Professional Services
- Leisure Consultancy
- Architectural Services
- Project Management & Quantity Surveying
- Renovation & Refurbishment
- Turnkey Leisure Facility Development
- Biodiversity & Sustainability Integration (BREEAM Very Good standard delivery)
- Interior Design and Branding

To get a design of the scale and finish that we have, with the lifespan the facility has, at probably a quarter of the price of a traditional build makes this a really good option that more Councils should consider.” Hillary Morris - Commercial Lead - LBBD Council

Company - Woods Engineering

Norman Woods, Managing Director

info@woodsengineering.ie

www.woodsengineering.ie

061-513634

About

WOODS Engineering is one of Ireland's most innovative Building Services Engineering firms. Established in 2013, the company has built a formidable reputation for managing complex engineering challenges in live, operational environments.

Engineering solutions that work.

As one of the first SME engineering consultants in Ireland to be certified in Building Information Modelling BIM ISO 19650 and ISO 9001 Quality Systems, we believe the best solutions are born from collective evolving intelligence. This rigorous framework allows us to deliver exceptional service to our design partners, consistently surpassing expectations.

As forward-thinking sustainability engineers, we design intelligent mechanical and electrical systems (MEP) that bring modern buildings to life. By combining technical precision with collaborative partnership, our team develops low-carbon MEP infrastructure that meets the highest standards of safety, performance, and compliance with the latest Building Regulations.

Built on precision.
Driven by partnership.
Engineered for tomorrow.

About

FT Aquatic Consulting is the specialised design arm of FT Leisure, our design and build division. We have the detailed knowledge to integrate the pool water technology into the pre-construction phase of the swimming pool construction process.

The Directors of FT Aquatic Consulting have a combined 50 years experience in the commercial swimming pool sector, having delivered over 300 projects together, from concept design to completion.

We have expertise in the following products and systems:
·Water treatment and filtration systems:

- Leisure water attraction and feature hydraulics
- Moveable floor and bulkheads
- Pool access solutions
- Stainless-steel and GRP pool tanks
- Pool fit out equipment

Ideally, we would like to be involved in a project from RIBA stage 2 onwards, to give us opportunity to positively influence the building design from the outset and to avoid operational compromises. Our services continue to the end of RIBA stage 4, when the project is ready to enter the construction phase.

Key Products and Services

Specialist Aquatic Design services for the commercial swimming pool water treatment and filtration industry.

Design services from RIBA stage 2 through to RIBA stage 4 for the following products:

- Water treatment and filtration systems
- Moveable floors and bulkheads
- Pool access systems

We cover all aspects of swimming pool water treatment system design from partial and full plant refurbishments through to new build projects.

Energy & Sustainability Consultants

MAX FORDHAM

Company - Max Fordham LLP

Zoë Crisp, Head of Bidding;
Mark Palmer, Sports and Leisure Director

z.crisp@maxfordham.com;
m.palmer@maxfordham.com

www.maxfordham.com

+44 (0) 207 267 5161

About

Max Fordham LLP is a partnership of engineers, designers and consultants, working with the built environment to deliver a sustainable future and a thriving planet. For 60 years , we have championed sustainable, low energy, and low carbon building design, and worked with the world's leading architects on some of the world's greatest buildings. Our portfolio includes award-winning exemplars of sustainable design and a diverse mix of beautifully engineered buildings.

Key Products and Services

- MEP engineering
- Sustainability and Zero Carbon consultancy
- Holistic advice for achieving ultra-low in-use energy swimming pools
- Pool water treatment engineering advice
- Passivhaus consultancy
- Acoustics consultancy
- Lighting design
- Building performance modelling
- Whole life carbon and embodied carbon assessments

Case Study: Ravelin Sports Centre, University of Portsmouth

Winner of the 2024 CIBSE Building Performance Awards Project of the Year, the BREEAM Outstanding-certified Ravelin Sports Centre has an in-use energy performance rating of DEC A and an operational energy consumption of less than 100 kWh/m²/yr, which is around one-tenth of the energy demand of an equivalent typical sports centre.

Ravelin has a 25-metre swimming pool, an eight-court sports hall, a 175-station fitness suite, climbing facilities, a ski simulator, teaching facilities, and office spaces. To achieve this level of sustainability and energy performance, we had to take a radically different approach to all aspects of the design, client engagement, procurement, construction, commissioning, handover, and aftercare. We'd love to share what we learnt.

Modular Facilities/ Pool Structures

Company - Myrtha Pools

Paul Martin

paul.martin@myrthapools.com

www.myrthapools.com

About

Coral Leisure is Ireland's leading leisure management company, operating 8 Local Authority pool and leisure facilities nationwide. Our mission is to provide a friendly, professional, and inclusive environment, delivered by expert and passionate teams. We place a strong emphasis on building lasting relationships with Local Authorities, communities, staff, and stakeholders, ensuring each facility becomes a hub for health, wellbeing, and social connection.

Through innovative programming and a customer-first approach, we drive participation across all age groups and abilities, supporting healthier, more active communities. Our approach is underpinned by operational excellence, strong governance, and a commitment to continuous improvement, with standardised systems ensuring consistency and high-quality service delivery across all sites. Sustainability is also central to our operations, with significant energy-saving initiatives in place and a clear pathway towards carbon neutrality over the next decade.

Our excellence is consistently recognised at a national level, with all Coral Leisure centres receiving the Outstanding Award at the Ireland Active Awards for 10 consecutive years, a distinction unmatched within the Irish leisure industry.

It all begins with a conversation, whether developing a new facility or enhancing an existing one, Coral Leisure provides a clear, proven path to success.

Key Products and Services

Coral Leisure delivers not just services, but meaningful social value, proving that when community comes first, success follows."
Siobhan Tighe - Managing Director

"At Coral Leisure, we recognise the incredible work charities do to support individuals and families in our communities. Our members are always eager to support meaningful causes, and we always look forward to making a positive impact together."

Company - Aura Leisure Management Services

information@auragroup.ie

https://www.auraleisure.ie/

About

Aura is the leading Irish specialist in sports and leisure facility management. Aura is an Irish owned company and each one of our leisure centres is available to the entire community on a pay as you go or membership basis. Key to our success has been the partnership approach we have adopted with Local Authorities, County Councils and our clients across the country to deliver on shared objectives. For more than 40 years we have been raising industry standards across Ireland and we have won many prestigious awards in the areas of Health & Safety, Human Resources, Energy Management, Diversity, Inclusion and Quality.

Unique to Aura, our in-house consulting engineer has devised and implemented a 5-Point Energy Plan across all the leisure centres we manage that pro-actively engages both staff and customers to constantly reduce our energy consumption which includes fuel, electricity, water and waste.

Aura's mission is to 'To Improve the Health and Wellbeing of Our Communities Through Exercise, Sport and Active Lifestyles' and our vision is to create 'A Healthier and Happier Ireland'. We educate, motivate and support our members and our communities to reach their health and fitness goals. Our unique fitness programmes Fit for Life and Lean3 are available to all members and do deliver real and sustainable results. The Aura Swim Academy is a market leader in providing swimming lessons for children and adults with an average of 11,000 children attending our lessons each week.

The Aura Holohan Group is officially certified as a Great Place to Work by Great Place to Work® Institute Ireland and is consistently ranked among Ireland's "Best Workplaces". It has also been recognised as one of the Best Workplaces for Women and as one of the Best Workplaces for Health & Wellbeing. Our people engagement programmes set us apart in the sports and leisure industry as it places our people firmly at the heart of what we do.

John Wilkes - Manager

John@airspacesolutions.com

www.airspacesolutions.com

00447866761824

About

We are a manufacturer of play inflatables specialising in leisure centre supply.We are bespoke so can create designs to fit. We also do site survey and training.

John Wilkes [Airspace Solutions Manager] supported us with advice on our safe operating systems, storage and cleaning," Herbertson said. "The ongoing support from Airspace Solutions wasn't just for the installation part of the project; the team has stayed in touch and are always available for advice and good practice."

Jim also emphasised the exceptional customer service provided by Airspace Solutions. "Airspace Solutions are the leading provider of leisure centre inflatables for many reasons. The quality of production is of the absolute highest standard and the support from Suzanne in the office and John in terms of installation, health & safety, bespoke training, and advice has been second to none."

Key Products and Services

Airspace offers a unique service from site visit for initial survey to create and installation of your new inflatable play feature.
Helping swimming pools at this difficult time is key to our objectives and we are proud to say that the many partners and pools we have worked with over the years have stayed with us and are always keen to update their play offering for the latest fun product.
Being safety Partners with the RLSS has also been a big bonus over last couple of years as the safety testing and standards update is key to ensuring a continued safe operation within the leisure facilties we work with.

Disability & Accessibilty Equipment

Company - Cotenda Ltd

Josh Reid

Poolpod@corepdgroup.com

www.cotenda.de

+44 1412372127

About

Cotenda Wellness Technology, home of the award-winning Poolpod range, provides inclusive aquatic access solutions — including pool lifts, aquatic wheelchairs and therapy equipment — enabling facilities to remove barriers and increase participation in swimming, supported by permanent staff based in Northern Ireland.

Poolpod 3.0

Poolpod 3.0 is a next-generation, battery-powered, versatile pool access lift offering dignified, independent entry for wheelchair users and those with limited mobility, with easy installation, integrated transport wheels, and enhanced safety and accessibility features like two ride together, voice-assistance and collision sensors.

AquaActive, AquaTilt & Floatsation

Independent pool access is supported by the AquaActive wheelchair, while the AquaTilt provides enhanced postural support and secure restraint for users with limited trunk control. Floatsation therapy aids offer adaptable buoyancy and full-body support to promote relaxation, confidence and effective positioning in the water.

Changing Pods

Changing pods are reconfigurable to suit different user groups throughout the day, with patented lockers accessible from inside each cubicle, dedicated wheelchair storage, layouts optimised for reduced mobility, and family-friendly features such as toddler seats, baby changing tables and child seats for safer, easier changing.

Company - Water Safety Ireland

Joanne Walshe - CEO

info@watersafety.ie

www.watersafety.ie

091-564400

About

Water Safety Ireland (WSI) is the statutory, voluntary body established to promote water safety and reduce drownings in Ireland. Our focus is on public awareness and education. Tragically, in Ireland, an average of 113 people die from drowning every year; this number is reducing. We strive to reduce these fatalities by changing attitudes and behaviours so that our aquatic environments can be enjoyed with confidence and safety. WSI, through legislation, is the national authority responsible for setting, maintaining, and delivering internationally aligned lifeguard standards, training, and water safety practices.

Over the past five years, WSI has issued more than 300,000 water safety certifications. This includes the training and revalidation of thousands of lifeguards across beaches, swimming pools, and inland waterways, all playing a vital role in keeping everyone safe in, on and near the water. WSI's Lifeguard Awards are valid for 2 years and on expiry a revalidation course will need to be completed within a year. Each year, WSI works closely with our Local Authority Water Safety Development Officer colleagues to ensure that all lifeguards are examined in advance of the outdoor summer season. For more information on the availability of lifeguard courses, please contact info@watersafety.ie

About

What we do
Independent, non-profit knowledge platform. IAKS fosters open exchange across disciplines, recognised internationally (IOC/IPC cooperation) and run for the benefit of the sector—not for profit.
Events & learning. Members access a rolling programme of conferences, facility tours, site visits and online seminars/webinars—from regional gatherings to the biennial IAKS Congress.
Access to global expertise. The network spans 150+ countries, giving UK & Ireland members a direct line to international specialists, case studies and the long-running sb magazine.
Thought leadership & white papers. IAKS Expert Circles publish guidance on priority topics. Recent example: “Why do we build pools?”—a discussion paper framing the public-value case and decision-making for aquatic facilities.

Find out more & get involved
The UK & Ireland section welcomes local authorities, operators, universities and consultants. We look forward to connecting with you and welcoming your ideas into our community!

We support Local authorities to ensure aquatic facilities are designed in accordance with EU standards and best practice.

We provide support to Local Authorities to create their Facility strategies and look to help develop swimming pool infrastructure for the future of swimming on the island. All aspects of our work are free of charge, and we offer support to design, build and operate.

Talk to us regarding the most appropriate operating model for your facility. We can advise on the type and the best financial model to suit all sizes of contract and have the latest information provided to you to make an informed choice of operating model.

We provide training for all aspects of Aquatics programmes, with Swimming Teacher Qualifications and we have a calendar of live CPDs and an e-Learning library for all your aquatics sports needs.

Learn to swim using our renowned Aquatic Academy programme designed to support you every step of a child's journey from learning a life skill to becoming a competent swimmer. Improving not only a child's performance but your revenue lines too!

About

Prospec are the UK's market leading premier supplier of high-quality lockers, cubicles, and leisure industry change area fitouts.

With proven brand quality and backed up with a 25-year Warranty, we are proud to be known as the market leaders within the Leisure, Wellness, Gym and Higher Education sectors. Specialising in the supply and installation of WC, Shower and Changing Cubicles, along with the most secure Lockers available, resulting in longevity and robustness in the most demanding of environments.

Prospec products have supported Sport England and the British Commonwealth Games Federation on multiple high profile sporting venues across the UK.

Outside of Leisure some of our premier clients include the country's leading Universities & Colleges, the National Rail Network, and some of the world's top Museums and Galleries. We pride ourselves on being a state-of-the-art solutions provider to any washroom or change facility.

Our knowledge and experience in "multi-change" areas will assist you in complying with current legislation and health and safety requirements, while offering inclusion and accessibility to your clients.

About

Poolview delivers advanced Automated Monitoring and Detection Systems that enhance swimming-pool supervision and strengthen safety across aquatic facilities. Our technology provides continuous above- and/or below-water visibility, supports faster incident response, and integrates seamlessly into day-to-day operations. With systems installed in over 350 pools, we help lifeguards and responders save lives every day by improving oversight and reducing blind spots. From system design and installation to training and ongoing support, Poolview delivers reliable, operationally focused solutions that raise safety standards and give teams the confidence to run safer, more efficient swimming facilities.
